To Whom It May Concern

RE: Oren James

Sir or Madam:

This letter of reference will introduce Oren James as a dedicated individual with ambition and integrity. Oren joined our team at the Lighthouse Pub in September of 2005. His vast experience and wealth of knowledge was a constant resource in our kitchen. His credentials as a chef are also a valuable asset to any restaurant. He has no problem working with others and is a progressive thinker and a problem solver. His loyalty was ever present as he often pitched in to help even at the last minute. Although he continues to work for us, I understand that his ambition is begging him to seek greater challenges. I would be upset and disappointed to lose Oren from our team, but would wish him well as a friend.

It is with no hesitation that I recommend Oren for a position with your company.

If you have further questions or concerns about Oren James, please call.

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Schweighardt". The signature is fluid and cursive, with a large, sweeping flourish at the end.

Dale Schweighardt

General Manager
